

Project Mentor Meeting #1 agenda

25 October 2023 / 11:30 AM / Software Lab

ATTENDEES

Trevor Douglas, Kristina, Kawthar, Charles

AGENDA

- Project idea introduction.
- What have we done?
 - Project planning and initialization documents
 - Discussed technology - still exploring this further.
 - Talked about flutter.
- What are we working on now?
 - Continuing our research to better understand our end users
 - What are their requirements?
 - What features will be most beneficial for them?
 - We are also reading existing research and attempting to reach out to RPS and, possibly, social services to gather more information about gender-based violence incidents in Regina."
- What is the plan for the next few weeks?
 - Explore technology further
 - Complete some architectural diagrams
 - Use-case diagram.
 - Hifi prototypes.
 - Start MVP#1
 - UX design and backend!

ACTION ITEMS

1. Add Trevor as collaborator to our GitHub. (Done)
2. Set a monthly meeting with him for now and this could move to weekly in the advanced phases of the project.

Notes from Trevor

Make sure that you have a working app that you can present at the end of the project life cycle.
