PROJECT CHARTER	
Project Name	SecureShe
Date Produced	10/14/ 2023
Project Goals	The goal of this project is to implement a user-friendly app that can be availed by anyone who has it installed. The app offers women the quickest and easiest way to contact their nearest help.
Project Objectives	1. Users are able to share their location with their contact/ friend list they have specified 2. Users are able to view resources to educate them about personal safety (i.e safety toolkit) 3. Users are able to access resources to local help and support. 4. Users are able share their personal stories with the community anonymously.
Project Budget	$0
Project Sponsor	Timothy Maciag,
Project Manager	Kawthar Alkhateeb

Additional Key Project Stakeholders

Developers (Kristina, Charles and Kawthar), Project Mentor: Trevor Douglas, Women who are going to use the app, Software Systems engineering faculty members at University of Regina, and any user (other than women) who is going to use the app.

Overall Project Milestones	Dates
MVP #1: Location sharing and/or friend list	2023-11-06
MVP #2: Safety toolkit + Friend list	2023-11-20
MVP #3: Chat feature	2023-12-4
MVP #4: Story sharing and enhancing user privacy	2024-01-15

* Please note that these are just rough estimates!

Overall Project Risks

1. Data Accuracy and Quality risks:

a. Users may submit inaccurate or false incident reports, impacting the reliability of the app's safety data.

b. Moderating user-generated content, including reports and comments, could pose challenges in maintaining quality and ensuring compliance with community guidelines.

2. Legal and Ethical Risks:

a.   The app may be used for unethical or harmful purposes, such as false reporting, harassment, or vigilantism, leading to ethical dilemmas.
